45 Times as Many Deaths After COVID Shots in Just 2 Years Compared With All Flu Vaccine-Related Deaths Since 1990, Data Show

The authors of a peer-reviewed meta-analysis of national and international COVID-19 vaccine adverse events during the first two years of the rollout said their findings highlight the importance of reevaluating public health policies that promote universal mass injection and multiple boosters for all demographic groups.

The cost of injecting healthy people, "especially children," with a Pfizer or Moderna COVID-19 vaccine "outweighs any claimed though unvalidated benefits," according to researchers who analyzed adverse events data from more than 10 regulatory surveillance and self-reporting systems during the first two years of the COVID-19 vaccine rollout.

"Our meta-analysis of both national and international vaccine adverse events emphasizes the importance of re-evaluating public health policies that promote universal mass injection and multiple boosters for all demographic groups," said the authors of a peer-reviewed study published this month in the International Journal of Vaccine Theory, Practice, and Research.

Eliana Romero, Ph.D., director of clinical research at the Neurodiversity Foundation, Shawn Fry, founder and chief science officer of the Neurodiversity Foundation and Brian Hooker, Ph.D., P.E., chief scientific officer of Children's Health Defense and associate professor of biology at Simpson University in Redding, California, authored the paper.

The researchers looked at adverse events specifically related to cardiovascular and fertility health — such as myocarditis and menstrual abnormalities — that went overlooked during the "expedited safety analyses" that took place in the "accelerated approval process that allowed the manufacturers to fast-track their products," they said.

They analyzed data from the Vaccine Adverse Event Reporting System (VAERS) database — the primary government-funded system for reporting adverse vaccine reactions in the U.S., which has been shown to report only 1% of actual vaccine adverse events — and the Defense Medical Epidemiology Database (DMED), the medical events database for all active and reserve U.S. military.

The authors also examined data from other regulatory surveillance and self-reporting systems including the V-safe After Vaccination Health Checker, the U.K.'s Yellow Card reporting system, Public Health Scotland, the Israeli Ministry of Health and the Natural Cycles App.

Hooker said the data highlights "the dramatic uptick in adverse events associated with the COVID-19 vaccine."

After carefully conducting statistical analyses, the authors concluded there were far more reports of adverse events following COVID-19 vaccination than following either influenza or pertussis vaccination.

The researchers also found "statistically significant higher numbers of hospital encounters in military personnel" after the COVID-19 vaccine rollout when compared to just before the rollout, and "increases in incidences of thromboembolic conditions, such as menstrual abnormalities, myocarditis, and cerebrovascular events after the implementation of COVID injection mandates, compared to the preceding five years."

The researchers verified their conclusions by comparing their findings to similar reports from other regulatory surveillance and self-reporting systems including EudraVigilance, Eurostat, German health insurers and the U.K.'s Office for National Statistics.

In addition to statistically significant increases in vaccine adverse events, the data showed "highly statistically significant" increases in "specific morbidity" and "all-cause mortality," Hooker told The Defender.

"These results should not be ignored," he added.

More than 45 times as many deaths after COVID shots than all flu vaccine deaths combined since 1990

The researchers found the number of reported deaths related to an mRNA COVID-19 vaccine was more than 45 times as many deaths per vaccine dose as were reported for all the influenza vaccines combined since 1990.

They also found a higher incidence of menstruation problems, myocarditis and cerebrovascular events following COVID-19 vaccination than following influenza vaccination, as seen in figure 1A:

Credit: Romero, Fry and Hooker, "Safety of mRNA Vaccines Administered During the First Twenty-Four Months of the International COVID-19 Vaccination Program."

The researchers also compared adverse events reported in VAERS following the COVID-19 vaccines to adverse events reported following the influenza and pertussis vaccines.

They showed the percentage of total reports attributed to death, for the COVID-19, influenza and pertussis vaccines, as seen in figure 1B:

Credit: Romero, Fry and Hooker, "Safety of mRNA Vaccines Administered During the First Twenty-Four Months of the International COVID-19 Vaccination Program."

Should the trends in myocarditis rates continue, "we will see spikes in death rates attributed to the increase in myocarditis documented above, as well as in the number of otherwise healthy young adults needing transplants to survive, and all the complications associated with such a transplant," the authors said.

DMED data trends mirrored VAERS and other surveillance data trends, which showed dramatic increases in many medical conditions in 2021 after the COVID-19 vaccine rollout when compared to the previous five years.

The researchers also pointed out that on Feb. 1, 2022, Sen. Ron Johnson (R-Wis.) wrote a letter to U.S. Secretary of Defense Lloyd J. Austin III asking if the U.S. Department of Defense (DOD) was aware of the DMED data.

"If so," Johnson said in his letter, "please explain what actions DOD has taken to investigate the root cause for the increases in these diagnoses."

COVID vaccines not as 'benign' as the media said they were

Romero, the paper's lead author, said the research wasn't done "for a cause" or "with any predetermined hope for any specific results."

Romero said she initially "had no qualms" about taking the COVID-19 vaccine, but soon it became "impossible not to hear all the opposition to them and, always a researcher at heart, I decided to follow up."

Romero holds a doctorate in molecular and human genetics and has worked with some of the world's top neurogeneticists.

"I'm a scientist through and through," Romero told The Defender. "I also have Asperger's, so I'm not exactly wired to tell anything but the truth."

Romero began finding "mounting evidence the vaccines weren't as benign as the media was desperately trying to convince us they were," she said and felt an obligation to share what she was finding with others.

Romero — who has 20 years of experience investigating the genetic and biological aspects of various disease states at Baylor College of Medicine, Children's Hospital of Pennsylvania, Johns Hopkins University and several private laboratories — said she used "all avenues available" and "went through every effort to standardize my data, compare apples to apples, and to perform any calculations I knew of to test the validity of the data presented."

"The paper isn't an attempt to skew anybody's opinions one way or the other," Romero emphasized. "Its sole purpose is to make sure people have all the information they need to make the best decisions they can for their health," she said.

"Governments and institutions and scientists and doctors should provide people ALL the information needed so that individuals can make truly informed decisions for themselves."

So, mission accomplished. And no vaccine maker can be sued anyway. As I mentioned in a different post, survival of the fittest/smartest at this point. If you are hell bent on believing what any govt agency says, then your life is in danger. Good on anyone for seeing thru the sham..

If "Sasha Latypova" is Correct that it was a "Counter Measure Prototype" not a Vaccine, would that not be Fraud? Plus in the Contract for the Jabs, did not the US Govt stipulate it was to be 'Safe and Effective'? Pray For Accountability! Private Law Firms?

In her Opinion and Others? The U.S. Department of Defense along with Fauci, Gates, Tedros, Moderna, Pfizer, FDA, CDC, WEF, CIA, CCP, and Others willfully and criminally engaged in racketeering, illegal advertising, fraud and mass premeditated murder of millions of innocent people worldwide.

They created Covid-19 in the United States, University Of North Carolina, Chapel Hill, developed further in Wuhan, and released it on the world to deploy the lethal unsafe Covid Jabs. They paid doctors and nurses to murder innocent patients. They denied safe early treatments murdering millions of more innocent people. Over 20 million global deaths directly attributed to the Covid Vaccines and 2.2 billion serious adverse reactions. "Plus 'Biden Admin' Suppressed Ivermectin, Hydroxy, and MABS."

If Dr. Naomi Wolf is Correct?, hopefully RFK.Jr, CHD, ICAN, Etc., will call for 'Exigent Congressional Hearings' on the Evidence she presents in her talk to "Hillsdale College'? CCP Bio-Weapon Jabs?

"Dr. Naomi Wolf nails it in this recent Speech to Hillsdale College!"
If the Evidence she has that conjecturally alleges that CCP Red China Proxy Company's made the Pfizer Bio-Weapon Jab?
That we are now living in a potential new Hybrid War Era scenario, with the CCP?
Conjectural "Intentional Killing Of US Citizens'??
That Pfizer is a German, and a CCP Red China Company her presentation?

If she is correct than the CCP, has out maneuvered the USA Dept Of Defense?
Dr. Wolf., "Communist Red China has two Vaccine Company's in USA, 'Springfield' MA, and 'Princeton', NJ!"
The Sec. Of Defense and the Joints Chief's of Staff they should Resign, if she is correct?

The simple fact that there was an almost immediate uptick in severe adverse reactions, and deaths following the Covid-19 injections must imply the Industry's intent to seriously harm and murder as many people as possible.
Since the first day injections were started, not once in over two years has the Industry made an effort to withdraw the poison injections from the market.
It is my opinion that all of the non-violent criminals in prison at this time be released and replaced with the extremely large number of complicit actors in this never ending horror story consisting of Pharmaceutical Industry executives who knew their products were poison, Doctors who injected their poisons, MSM hacks who encouraged people to get injected by lying to them, and all of the politicians including the President who championed and mandated the poison injections.
There isn't a place low enough in Hell for all of them.

"Pfizer's Crimes Against Humanity EXPOSED: "Docs Show Pfizer Knew CLOT SHOT Caused" HEART DAMAGE"
https://rumble.com/v2i9jwm-...

1.) Pfizer knew their vaxx didn't work, caused heart attacks, and they sold it to the public anyway.
2.)Dr. Naomi Wolf is back to talk about how 21 patients died during Pfizer's vaccine trials and the FDA never asked about it.
3.)Tens of thousands of Pfizer internal documents have been released by court order.
According to the documents, Pfizer labeled their Covid vaccine a 'failure' within a month of the rollout.
4.) More docs reveal the third most common side-effect was contracting Covid-19.
5.) "Pfizer knew in May of 2021 that 35 minors had their hearts permanently damaged with myocarditis within a week of being injected".
6.) There were 43K reported adverse events within 90 days of the vaccine

This is not big pharma. This is governments around the world, and they've been doing this for some time now. The idea is and has always been to profit off the efforts of those who are not elites. The eugenics tools have been around for ages and they just improve with technology, that's all. You pay for everything. You even pay to die. They create potions to kill you, to sicken you, and then prolong your life in misery with drugs that make you suffer even more before they eventually kill you. These sociopaths despise you, me and everyone else. the quicker they can exterminate you and I like bugs, the better. Now, they're at a point where they don't need most people and they're rubbing their grubby hands in anticipation of the money they'll make of making you and I pay for the poisons they inject into you. And if you think you're going to escape it, forget it. They have been poisoning the food, and water and everything else for years, so they will get you one way or another. And you had better believe, they have their own source of food, water, etc., as they are NOT poisoning themselves. This is a big lab with dual purposes: They want to live forever and the big experiment is happening right now, with their machine and man marriage. Once they figure it out, if they ever do, of course, it will only be for them. Hey, they have over 8 billion people to play with. Covid-19 is just a small part of the plan.

Although the vaccine manufacturers are exempt. They are NOT exempt if they knew prior to the rollout of side effects or deaths that it could cause and did not disclose to the people taking it. NOTHING WAS DISCLOSURED, SAFE AND EFFECTIVE WAS ALL WE HEARD. THE INSERT IN THE VACCINE WAS BLANK ON PURPOSE! I do believe law suites have started on those grounds. I pray they all pay, especially, Bill Gates and Fauci

They DID know. It was in the documents they wanted hidden from the public for 75 years. Those showed that their studies all revealed the mRNA was NOT safe or effective. That is why they wanted it hidden. The government did know & did not want us to have the safe cures that would have stopped the Plandemic in its tracks. A week of zinc, D3, HCQ (or Ivermectin or even quercetin), vitamin C & melatonin would cure people in about 5 days without lingering effects. There were physicians doing this! We, however, allowed politicians to appoint "authorities" who parroted their propaganda & ignored real scientists in the field of virology. Worse, we allowed these politicians to dictate what treatments our physicians were allowed to give us & take away their licenses & jobs if they did not comply. The injection did not have time to have been tested for safety for short or LONG term safety. Because it was radically new technology it should have had more testing, not less. They changed the definition of vaccine so that it could be included but it is still not a vaccine, safe or effective. Like most Democratic & Communist assertions, it is the opposite of what they day.

But very few who ran to get the shots questioned those blank inserts. I never got anything and not because of Covid politics or mass formation psychosis. Have not gotten any "vaccines" since childhood …never had a flu shot …so I was just sticking to my usual personal health management to avoid any Covid shot. And yes for the past years I was banned from vax required family weddings, seeing grandchildren and other family members and for a time going out to eat or visit museums and other places in NYC. I knew the shenanigans going on in March 2020 and I'm used to being a rebel so stood my ground. I do worry about all my vaxed loved ones keeping their health into the future which is everyone of them.

Genieassy, thank you for being strong and rebellious, yes, I said it, rebellious. :)
We must have drank from the same well. The only jabs I ever got were as a kid and to this day, take no medications, over the counter or otherwise, and managed to stay away from "most" medications, surgeries, procedures, etc.

Unfortunately, they did get me a few times fell victim to their plots. I took the Whooping Cough jab in December 2019 when I was "struck down" with the inability to breathe, and oxygen level went down to 78. I was the walking dead but no one was talking about "the virus...da da da da daaaaaaa".

Something was definitely circulating, but I thought more 5G radiation poisoning at that time. My GP muttered something

under his breath "about a virus they were learning about". DECEMBER 2019.
So, please don't try to sell the "we were being told what to do" when many knew much more then they were letting on.

My GP took the jabs. Then he retired shortly thereafter. Coincidence????

The reason I am here today to talk about it is because at the time the hospitals were doing what they do with patients with these symptoms, steroids, inhalers , etc. A month later my oxygen went back up to 99 and has stayed there since.

Exactly what ingredients are in these shots that are accelerating people's deaths? .Forget patents, when it comes to mass injury and deaths. People have the right to know what is being injected into their bodies. Americans seem to have no government agencies to protect them. The taxpayer-supported agencies are hell bent on protecting manufacturers that pay them off. Is this something new or are we just finding out how our government works?

MAKE SURE CHD SENIOR MANAGEMENT SEES THIS:
I posted at
Big Ag and Big Oil Are Key Drivers of Colorado River Crisis • Children's Health Defense (childrenshealthdefense.org)

I calculate ~500,000 Americans killed in 2020 by late treatment, Remdesivir and ventilators.
I calculate ~1.1 million more Americans killed in 2021&2022 by the toxic Covid-19 vaxxes.
Another ~550,000 Americans will die from the C19 vaxxes in 2023, unless we start simple, cheap, effective treatment of the vaxxed NOW!
This needs emergency funding – from Florida or Texas? – to get it started.
CAN YOU HELP MAKE THIS HAPPEN? RFKjr? CHD?
I've been advocating this treatment since Nov2022 – almost 50,000 more American have died from the vaxxes each month since then.
This is NOT a drill! This is real.
Enough talk – it's past time for action!
